

WHAT ARE THE BENEFITS OF A F.A.S.T. MEMBERSHIP?

Teachers frequently ask, "What does a membership in F.A.S.T. do for me? What does my \$20 provide?" Here are several reasons that make it a bargain at any price:

An annual conference that features a "trade fair," dynamic presentations, hands-on workshops and a general membership meeting.

An award winning journal that is published three times a year.

A newsletter that gives you those in-between bits of information relative to science education in Florida and across the nation.

A board of directors and officers who meet regularly on behalf of science and science education to coordinate activities at all educational levels.

A voice at the national level as the Florida affiliate of the National Association of Science Teachers.

An educational effort directed at the Department of Education, the State Board of Education and the Legislature.

A professional association of dedicated individuals and representatives on statewide boards, committees, and panels that shape educational policy in Florida.

Recognition and awards for outstanding individuals and groups for their contributions to science education.

Who are we? We are teachers, scientists, science educators, science supervisors, curriculum designers, administrators and business interests. We have a common goal of a better Florida through better programs of science education.

FLORIDA ASSOCIATION OF SCIENCE TEACHERS, INC.
