

Welcome Florida Association of Science Teachers!

FAST Conference October 21, 22 and 23, 2010

“Navigating Through Science”

This annual conference will be held in beautiful St. Augustine, Florida at the Renaissance Resort at World Golf Village. The theme of the convention will be "Navigating Through Science". Dynamic keynote speakers in addition to a wide variety of topics will be provided for diverse, stimulating and informative sessions.

Founded in 1565, St. Augustine is America's oldest city, where you'll be wrapped in both wonder and awe – during exciting field trips, engaging speakers and sessions from Florida's premiere teachers.

The NEW Renaissance Resort at World Golf Village is a great spot from which to explore Florida's many treasures and embrace the outdoors. You'll only be steps from 2 Championship golf courses, including King & Bear – the only course co-designed by Arnold Palmer and Jack Nicholas!

St. Augustine is filled with art galleries, antique shops and boutiques. Over 150 Outlet stores are located just 5 miles from the resort.
