

**NSTA/FAST Online Professional Development:**

Together, in collaboration with the National Science Teachers Association F.A.S.T. is pleased to provide our members with online professional learning that supports best practices in Science Literacy and instruction. Using these resources will help you plan, track and accomplish your own science professional goals for growth.

Begin you own plan of online science professional development and instruction support today. Questions, concerns, or comments should be sent to Tom Metcalf, F.A.S.T. President Elect at [medcalft@palmbeach.k12.fl](mailto:medcalft@palmbeach.k12.fl)

Develop you own professional development plan by following these simple steps.

1. Click on the [NTSA Learning Center](#) link to explore the site for opportunities.
2. Use the PD Index Tool to diagnose your specific content area needs to see what “SciPacks” and other e-PD resources NTSA suggests for you.
3. Once you have located a product you wish to view, click on the Add to Library button to get access to it. You can access your Library and all of the items you’ve selected.
